### Compromise Efforts Renewed.

Despite the efforts of its authors to draw a resolution that would make the widest appeal to all elements wanting early peace Senator Hitchcock (Nob.). Democratic leader; promptly announced that it would not do at all; and later by the day Senator Underwood (A'a.) renewed his effort to have a commentee of concilation appointed, to arrange a set of compromise reservations with which the treaty could be ratified. His efforts failed and the holiday recess opens with the Knox resolution as one more or less mising proposal before the Sana for restoring peace. Senator Hitchcock issued this statement;

The Knox resolution is another of the highly interesting efforts made by the Senator from Pennsylvania to prevent the United States from Joining the League of Nations. The present effort proposes to reach a state of peace by a repeal of the declaration of war a year after the war is over and after other nations have ratified the terms of peace. It then proposes that the United States while shirking all obligations of the treaty shall demand of Germany all benefits of the treaty under threat that if they are not conceded and guaranteed the President shall prohibit all commercial intercourse, with Germany and Germans and all credits or sup-

Such a preposterous plan cannot be adopted. If it should be adopted the President could not give it his approval. If he gave it his approval Germany would not accept its terms nor would any President sciopt such a disar-trous course as to deprive American exporters of the opportunity of doing business with Germany. Such action would turn over to other nations the

Mr. Hitcheock uslad that the statements for publication should make clear that the attendance of Democrats was small, so that the country should not get the impression that the vote indicated the measure of sentiment. To this some of the Republicans retorted that the Democrats throughout had shown slight interest in committee meetings on treaty matters from the day the document was laid before the Senate.

When the resolution came up in committee Senator Pomerene protested that the procedure was not constitutional. He was sure that the only way to end war was by ratifying a treaty of peace and cited the debats in the constitutional convention in proof.

Just as Gen. Wood was about to re-ciprocate the salutation a small urobin perched on the ten of an adjoining mail car yelled out, "Three cheers for Gen. Wood, our next President!" Gen. Pershing caught the humor of the situation and joined in the laugh. Under the auspices of the American
